

Round Robin/Bracketed Swiss Teams General Conditions of Contest

All of the General Conditions of Contest (CoC) for Swiss Teams apply. In addition, the following is permissible at sponsor option: with sanctioning prior to the event, the field may be divided into brackets as described below, with the intent that all brackets (or all except one) play a round robin with any acceptable form of Swiss Teams scoring.

METHOD OF BRACKETS

The field may be divided into brackets as close as the TD can manage to eight tables apiece (six to eight tables in each). Exception: a 17-table event may have a nine- and eight-table bracket.

The field may have an open flight Swiss Teams (open to any team by request when buying an entry) with the remaining teams divided as provided in the previous paragraph.
