BUT the gamefile was not backward compatible with earlier versions of SCORE. <p>Version 8.03</p> <ul style="list-style-type: none">♠♠ Reversed incompatibility. Corrected first OA in regional events. (Second place and mid-flight points still bad. Would not DBadd any side games. <p>Version 8.04</p> <ul style="list-style-type: none">♠♠ Fixed the time stamp on club fees. i.e. some fee changes would take place automatically. (SCORE could not handle a reduction in fees, club table fee being eliminated was a problem.

Version 8.07

- ♠♠ Added all new and changed club fees. (i.e. The non-time stamped fees would take effect on 1 April.)

Bug Fixes Continued	<p>♠♠ Removed impossible masterpoint limits for lower strata when non-life master is chosen as a limit.</p> <p>♠♠ Bracketed Round Robin masterpoint calculations have been fixed.</p> <p>♠♠ Corrected Swiss masterpoint calculations (in the past it would sometimes treat a stratified Swiss as a one bracket Swiss.)</p> <p>♠♠ Updated special club fees to a new fee schedule (special fees were not triggered by date; therefore a new version is needed to process April 2016 reports.)</p> <p>♠♠ Fixed table fee reductions for STaCs with more than 500 tables.</p> <p>Version 8.10</p> <p>♠♠ Broke sectional single session masterpoints, this has been fixed. Only know masterpoint bug in 8.10 is the calculation for side game series winners. This computes with an M factor of 1.00, it should be 0.80. This can be fudged by setting the side game series as being a senior event.</p>
Tournament Financials	<p>♠♠ Tournament Directors should check default fees to ensure a match inside ACBLscore. Directors should edit if it does not match.</p>
